- d) Re-select 'P' (Park), cycle ignition, press both 'Trip' and 'Cancel' buttons on the facia until 'Check Engine' light illuminates on the Driver's Information Panel. Release both buttons momentarily, then repress until the trip display shows a six figure serial number. Release both buttons. Wait for the trip display to further change to show the option select bar code. Check that the bar code displayed is correct for the market/ model configuration of the motor car (see charts at the end of this Product Support Information Sheet).
